MY R. STAHL 8562A

The R. STAHL Series 8562 residual current circuit breaker is a component for residual current monitoring and switches systems in the event of residual currents – for reliable protection of persons in hazardous areas. It is suitable for pulsating direct currents and alternating currents and is designed for rated operational currents of 16, 25 or 40 A and rated residual currents of 10, 30, 100, 300 and 500 mA.
