

LED indicator lamp for installation on mounting rail

Series 8010/6 Simple apparatus

- Efficient, beneficial LED technology: High luminance, low heat build-up, extremely high service life, maintenance-free
- Easily visible light signals thanks to diffuser lenses in red, yellow, green, blue and white
- Usable at temperatures as low as -60 °C

WebCode 8010E

The series 8010 indicator lamps from R. STAHL use a white LED with a diffuser lens, the light from which can be also be coloured red, yellow, green and blue using calottes. This means that important signals from a switchgear are easily visible, even in poor lighting conditions. The indicator lamps are robust and can be used at temperatures as low as -60 °C.
